

## How to Read the Bible With Fresh Eyes!

*The process is simple:*

- 1) Get a fresh Bible, preferably in a translation you haven't read before or for a while.
- 2) Ask God to open your eyes, your ears and your heart as He speaks to you through His Word each time you read.
- 3) Read the chapters on the included schedule each day out loud, slowly.
- 4) Search for what the Bible says on the following issues:
  - a. Prayer – When do people pray? Why do they pray? Where do they pray? What do they pray?
  - b. Favor – What is it? How does one obtain it? What happens when one receives it?
  - c. Loving God – How?
  - d. Loving My Neighbor – How?
  - e. Loving One Another – How?
- 5) Listen to the whispers of the Spirit as you read, as He reveals God's will concerning faith, mercy, grace and hope.
- 6) Write down what you discover in a notebook or on a document file in your computer to review and ponder.
- 7) Share what you are learning with others in the church, and with family and friends to encourage them in the Lord.

Each time I read the Word of God, I am amazed at how practical His will and whim is. It encourages the soul, transforming us into His image each day we step into His presence through His Word. ~ Pastor Matt
